CWA

Highlights of Tentative Agreement

1. Duration of Contract and Ratification Bonus

The terms of the contract will become effective upon ratification and will remain in effect until **11:59 pm on February 11, 2027**.

A one-time bonus of \$1000 will be paid if the contract is ratified by **March 3, 2023**.

2. Wages and Other Compensation

A base wage increase of 14% wage by the end of the contract, even without including the new inflation protections and title-specific upgrades described below. In addition, our initial 5% wage increase, retroactive to February 11, will be paid following ratification.

a. General Wage Increase

The increases listed below will be applied to the top in the basic wage schedules on the date indicated.

- 5% effective February 11, 2023
- 3% *plus COLA effective February 11, 2024
- 3% *plus COLA effective February 9, 2025
- 3% *plus COLA effective February 8, 2026

The 2023 General Wage Increase will be retroactive to February 11, 2023. Employees will receive the 5% 2023 General Wage Increase in their current wage table prior to slotting into the new wage table.

As always, any employee over the max for their title’s wage table will still receive the General Wage Increases in a lump sum annually.

b. *NEW!* Wage Adjustments to Protect Against Inflation

Effective with each annual General Wage Increase for years 2024, 2025, and 2026, an adjustment will be made in the basic weekly rates in each wage schedule to account for high inflation levels in 2023, 2024, and 2025 respectively.

For 2024, the amount of the adjustment shall be 0.5 times the increase above three percent (3%) in the U.S. Department of Labor Statistics “CPI-W” (1982-1984=100) for December 2023 over December 2022. The adjustment will be added to the 2023 General Wage Increase and applied exponentially to the wage table with no change to starting wages.

This same formula will be updated for the following years and applied to wage increases in 2025 and 2026. However, in no event shall the wage increase for 2024, 2025, or 2026 exceed 5%.
