

2023 Mobility FINAL Bargaining Report 2/10/2023

It is with great excitement that the District 3 Black Bargaining Committee can announce that we have reached a Tentative Agreement with AT&T Mobility for a new contract covering over 7,000 workers across the nine southeastern states. Thank you all again for standing with us through this process!

This agreement must be approved by a majority vote to take effect, and more details will be coming out soon about this process.

We have many new improvements for every group in the Black Contract. This includes substantial wage increases with inflation protection, job title upgrades, paid parental leave, overtime after eight hours, new stipends for work-from-home agents, enhanced job security, commuter benefits, increased severance payments, and much more.

Your Bargaining Committee wants to thank you for your hard work and mobilization efforts. Without your hard work each day, this would not be possible.

Sincerely,

Mindy, Karen, Tammy, and Rodney
